

**Pick favorite movie**

```
graph TD; A([Pick favorite movie]) --> B[Assign the movie to a variable (Movie)]; B --> C[Create a variable for the list of characters (Characters)]; C --> D[Create a list of characters separating them by commas]; D --> E[Print "My favorite movie is (Movie) and the main characters are (Characters)"]; E --> F([End]);
```

Assign the  
movie to a  
variable  
(Movie)

Create a  
variable for  
the list of  
characters  
(Characters)

Create a list of characters  
seperating them by  
commas

Print "My  
favorite movie  
is (Movie) and  
the main  
characters  
are  
(Characters)"

**End**
