

**Determine the formula
($V = I * R$)**

```
graph TD; A((Determine the formula  
(V = I * R))) --> B[Assign a variable to  
the the numbers for I  
and R]; B --> C[Assign a variable to  
the formula (V)]; C --> D[Multiply the 2  
numbers to come up  
with V]; D --> E([Print answer]);
```

**Assign a variable to
the the numbers for I
and R**

**Assign a variable to
the formula (V)**

**Multiply the 2
numbers to come up
with V**
